

Designer Manufacturer

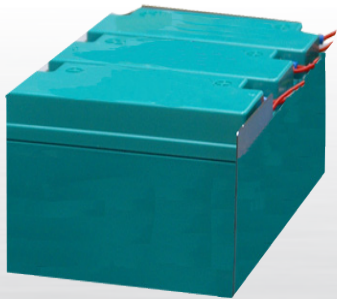

BATTERIES PACK

Batteries pack for energy cabinet

Characteristics:

- Batteries AGM or Lithium batteries : Allow to replace the batteries of energy cabinet
- Quick and easy installation: batteries ready to install, tested and unpaired 12 VDC

Lithium Batteries

- Batteries characteristics : 10 Ah, 20 Ah, 30 Ah, 40 Ah par module de 10 Ah
- Battery pack voltage : 24 VDC
- Operating temperatures of between -5°C and $+35^{\circ}\text{C}$
- The batteries are guaranteed for more than 1 000 discharge/recharge cycles.
- Assembly in energy cabinet by LM REALISATIONS

AGM Batteries

- Batteries characteristics : 28 Ah, 40 Ah, 65 Ah
- Battery pack voltage : 24 VDC
- Operating temperatures of between -5°C and $+35^{\circ}\text{C}$
- The batteries are guaranteed for more than 300 discharge/recharge cycles.
- Assembly in energy cabinet by LM REALISATIONS
